

D-LAG CONVEYOR PULLEYS

PT COMPONENTS

You spoke. We listened. Dodge D-LAG conveyor pulleys offer extended lagging life and are available from stock.

Conveyor performance and uptime can be greatly affected by the life and durability of conveyor pulley lagging. D-LAG lowers operating costs by reducing lagging wear thereby extending belt life. Dodge offers the only line of stock conveyor pulleys that can actually lower your total cost of ownership.

Extended lagging life

- 73% less wear in abrasive conditions
- Excellent resistance to cuts and gouges
- 100% vulcanized for unparalleled pulley bonding and strength

Available from stock

- D-LAG Heavy Duty and D-LAG Mine Duty EXTRA drum pulleys are available for next day delivery when shipped from stock

Advanced pulley design

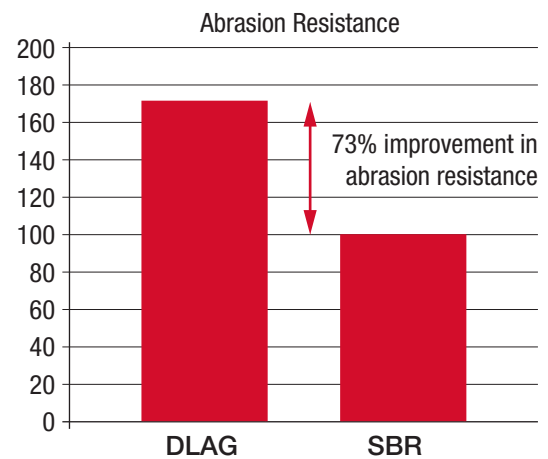

- Submerged arc (SAW) welds utilized for all joints
- Heavy Duty pulleys designed with flexible end discs to eliminate weld fatigue under cyclical loads
- Mine Duty EXTRA pulleys pioneered the hub-weld eliminating Integral Hub design

Independent testing in 2012 showed D-LAG significantly outperforms other rubber formulas when subjected to abrasive conditions. D-LAG has been delivering higher quality, longer life and lower total cost of ownership on conveyors worldwide for over 15 years.
